Hungarian higher education has a long history, with the first university founded in 1367. Hungary's modern higher education system consisting of universities and colleges emerged in the 20th century. Hungarian diplomas are highly regarded worldwide. The programmes are of a high standard, yet tuition fees and living costs are quite reasonable.

**Hungarian Logistics Education in Higher
Education Institutes(HEI)**

Higher education programmes in Hungary are offered by universities and colleges. In accordance with the common European higher education principles, Hungary introduced the three cycle degree structure in 2006 (BA/BSc, MA/MSc, and PhD/DLA). Within the framework of this system, BA/BSc programmes lead to a first degree. Master level programmes require a first degree as admission criterion. There are a few fields of tertiary education (e.g. law and medical studies) where undivided long programmes remain the standard form of study (10 to 12 semesters) leading to a first degree which is however equivalent to an MA/MSc degree. All BA/BSc and MA/MSc degrees grant access to the labour market. In addition to full degree courses, HEIs offer shorter programmes too, such as summer universities and partial training. The strength of Hungarian higher education lies in its PhD/DLA programmes. The doctoral degrees granted by Hungarian HEIs have a good international reputation. The pre-requisite to entering doctoral programmes is a MA/MSc degree.

Hungary's Higher education system

Hungary's Higher education institutes network & allocation

HEI in Budapest

HEI out of Budapest

	No. of credits	No. of semesters
Degree programmes		
BA/BSc	180 – 240 credits	6 – 8 semesters
MA/MSc	60 – 120 credits	2 – 4 semesters
Unified MA	300 – 360 credits	10 – 12 semesters
PhD/DLA	180 credits	6 semesters
Non-degree programmes		
Postgraduate specialisation	60 – 120 credits	2 – 4 semesters
Summer university courses	Various	
Partial trainings	Various	
Higher level vocational training. Short cycle advanced vocational programmes	Various	2 – 4 semesters

- The academic year is divided into 2 semesters including 14–15 weeks of lectures and seminars
- followed by a 6-week examination period.
